### Week 1: Law

It is commonly understood that to fulfill a command, you simply have to do what is asked. Luther discovered that God's commands are not fulfilled that easily. God judges your motivations. Trying to avoid punishment or looking for a reward are actually breaking God's laws because your motivations are selfish. This is why the Apostle Paul says the law increases your sin. (Romans 5:20) To learn more about Luther's understanding of the law and how it functions go to [lutherhouseofstudy.org](http://lutherhouseofstudy.org).
